JOURNAL OF IMMUNOLOGICAL METHODS

Contents to volume 187 (1995)

Number 1 – 16 November 1995

Research reports

A rapid non-selective method to generate quadromas by microelectrofusion
Y. Cao, T. Vinayagamoorthy, A.A. Noujaim and M.R. Suresh (Canada) 1

Analysis of T cell receptor β chain expression by isoelectric focusing following gene amplification and in vitro translation
P. Bouffard, C. Gagnon, D. Cloutier, S.J. MacLean, A. Souleimani, D. Nallainathan, W.A. Horne, N. Pilon and D.M. Gibson (Canada) 9

Hydrogen peroxide destaining: a new method for removing non-specific stains in nitrocellulose membrane-based dot-ELISA for the detection of trypanosomes in tsetse flies (*Glossina spp.*)
K.M. Bosompem, R.K.G. Assoku and V.M. Nantulya (Ghana, Kenya) 23

Determination of tissue inhibitor of metalloproteinases-2 (TIMP-2) in experimental animals using monoclonal antibodies against TIMP-2-specific oligopeptides
N. Fujimoto, H. Tokai, K. Iwata, Y. Okada and T. Hayakawa (Japan) 33

Characterization of mouse nasal lymphocytes isolated by enzymatic extraction with collagenase
H. Asanuma, Y. Inaba, C. Aizawa, T. Kurata and S.-i. Tamura (Japan) 41

Fluorescence resonance energy transfer as a new method for the epitope-specific characterization of anti-platelet antibodies
M. Koksch, G. Rothe, V. Kiefel and G. Schmitz (Germany) 53

Fluorescence labeling of bacteria for studies of intracellular pathogenesis
D.A. Drevets and A.M. Elliott (USA) 69

Purification of a 92 kDa human immunostimulating glycoprotein obtained from the Tamm-Horsfall glycoprotein
E. Fontan, H. Jusforgues-Saklani, E. Briend and R.M. Fauve (France) 81

Comparison of [^{3}H]thymidine incorporation with MTT- and MTS-based bioassays for human and murine IL-2 and IL-4 analysis. Tetrazolium assays provide markedly enhanced sensitivity
R.S. Gieni, Y. Li and K.T. HayGlass (Canada) 85

An assay for the identification of antigens recognized by cytotoxic T cells, based on transient transfection of COS cells
P. Toye, P. Wijngaard, N. MacHugh and H. Clevers (Kenya, Netherlands) 95

The application of in vitro isolation, cryopreservation and patch-clamp microelectrode recording methods to adult rat thymic nurse cells
J.E.G. Downing, L. Vitanova and P. Villa (UK, Bulgaria, Spain) 103

Preparation and characterization of fluorescein-labeled plasma membrane vesicles from transfected Chinese hamster ovary cells
M.E. Donnell, G.M. DeLuca and D.P. Blackall (USA) 111

Quartz crystal microbalance detection of *Vibrio cholerae* O139 serotype
R.M. Carter, J.J. Mekalanos, M.B. Jacobs, G.J. Lubrano and G.G. Guilbault (USA) 121

Establishment and evaluation of MRK16-magnetic cell sorting assays for detecting low expression of multidrug resistance P-glycoprotein using human leukemia cell lines and peripheral blood cells from healthy donors
E. Okochi, T. Iwahashi, K. Ariyoshi, H. Watabe, T. Tsuruo and K. Ono (Japan) 127

Intrafamily fragment analysis of the T cell receptor β chain CDR3 region
D. Liu, J.P. Callahan and P.C. Dau (USA) 139

A method for preparing chelate-cytokine conjugates with retention of protein structure, biological activity, and pharmacokinetic properties
D.C. Litzinger, C.M. Ransone, L.D. Ralph, W. Laderach, K.L. Whitcomb, M.A. Woodward, R.W. Niven and M.J. Treuheit (USA) 151

Isolation of leukocytes infiltrating the islets of Langerhans of diabetes-prone mice for flow cytometric analysis
C. Faveeuw, M.-C. Gagnerault and F. Lepault (France) 163

An improved method to create nitrocellulose particles suitable for the immobilization of antigen and antibody
M. Steinitz and S. Tamir (Israel) 171

The use of dedicated peptide libraries permits the discovery of high affinity binding peptides
H.S. De Koster, R. Amons, W.E. Benckhuijsen, M. Feijlbrief, G.A. Schellekens and J.W. Drijfhout (Netherlands) 179

Notes to authors 189

Number 2 – 1 December 1995

Review articles

Quantitative cell line based bioassays for human cytokines
A.R. Mire-Sluis, L. Page and R. Thorpe (UK) 191

Research reports

Mathematical considerations of competitive polymerase chain reaction
A.R. Connolly, L.G. Cleland and B.W. Kirkham (Australia) 201
A new adhesion assay using buoyancy to remove non-adherent cells
A.E. Goodwin and B.U. Pauli (USA) 213
Immunoglobulin A subclass measurement in serum and saliva: sensitivity of detection of dimeric IgA2 in ELISA depends on the antibody used
J.W. De Fijter, A.W.L. Van den Wall Bake, C.A. Braam, L.A. Van Es and M.R. Daha (Netherlands) 221
Immunoblot analysis of bacterial polysaccharides: application to the type-specific polysaccharides of *Streptococcus suis* and *Streptococcus agalactiae*
K. Tikkanen, J. Hälyrinen, S. Pelkonen and J. Finne (Finland) 233
Scanning electron microscopy of immunogold labeled cat allergens (Fel d 1) on the surface of airborne house dust particles
H. Ormstad, E. Namork, P.I. Gaarder and B.V. Johansen (Norway) 245
Quantification of measles virus by a virus receptor-dependent and haemagglutinin-specific T cell stimulation assay
M.-C. Trescol-Biémont, S. Leonov, C. Rabourdin-Combe and D. Gerlier (France) 253
Detection of anti-liver cytosol antibody type 1 (anti-LC1) by immunodiffusion, counterimmunoelectrophoresis and immunoblotting: comparison of different techniques
L. Muratori, M. Cataleta, P. Muratori, P. Manotti, M. Lenzi, F. Cassani and F.B. Bianchi (Italy) 259
Comparison of four lymphocyte isolation methods applied to rodent T cell subpopulations and B cells
C. Pelegrí, M. Rodríguez-Palmero, M.P. Morante, J. Comas, M. Castell and À. Franch (Spain) 265
Simultaneous quantitation of multiple cytokine mRNAs by RT-PCR utilizing plate based EIA methodology
R.D. Hockett Jr., K.M. Janowski and R.P. Bucy (USA) 273
Clinical correlates and substrate specificities of antibodies exhibiting neutrophil nuclear reactivity – A methodological study
B. Bang la Cour, A. Wiik, M. Høier-Madsen and B. Baslund (Denmark) 287

Technical note

The assessment of antibody affinity distribution by thiocyanate elution: a simple dose-response approach
M.U. Ferreira and A.M. Katzin (Brazil) 297

Corrigendum

Corrigendum to "Analysis of human CD4-antibody interaction using the BIAcore system" [J. Immunol. Methods 183 (1995) 141]
F. Velge-Roussel, P. Breton, F. Lescure, X. Guillon, D. Bout and J. Hoebeke (France) 307

Contents to volume 187 (1995) 309

Notes to authors 311
